PROFESSIONAL SUMMARY

Motivated and detail-oriented BCA student at Kristu Jayanti University with a strong foundation in programming, web development, and software engineering concepts. Experienced in building academic projects that bridge frontend, backend, and database layers. Proficient in C, C++, HTML, and CSS, with active learning in JavaScript and SQL. Seeking an internship or entry-level opportunity to apply academic knowledge in a professional setting.

EDUCATION

Bachelor of Computer Applications (BCA) | Kristu Jayanti University, Bangalore

2024 – Present (Expected Graduation: 2027)

CGPA: 7.8 / 10.0 (ongoing)

Higher Secondary Certificate (12th Grade – Commerce Stream) | Bradford International School

Completed: 2024

Secondary School Certificate (10th Grade) | St. Anne's High School

Completed: 2022

TECHNICAL SKILLS

Programming Languages: C, C++ (Foundational–Intermediate); Python (Basics); JavaScript (Learning)

Web Development: HTML5, CSS3

Database: SQL (MySQL – Learning); DBMS concepts (Normalization, ER Diagrams, Joins)

Core Concepts: Data Structures & Algorithms (Basics), OOPS, Operating Systems, Computer Networks

Soft Skills: Problem-Solving, Quick Learner, Team Collaboration, Time Management, Communication

ACADEMIC PROJECTS

Vehicle Damage Detection System

- Designed and explored a complete workflow for image-based vehicle damage detection to assist insurance and automotive companies in automating damage assessment.
- Studied and mapped the system architecture: frontend (HTML/CSS for user input & image upload), backend (Python/Flask logic), and database (MySQL for storing vehicle records and damage reports).
- Understood integration of image processing concepts - how AI/ML models can classify damage severity from uploaded photos.
- Technologies explored:** HTML, CSS, Python, MySQL, Flask (conceptual), Image Processing basics

Personal Portfolio Website

- Designed and developed a fully responsive personal portfolio website from scratch to showcase academic background, projects, and technical skills to potential recruiters.
- Implemented clean, modern UI/UX design principles using HTML5 and CSS3 - including flexbox layouts, CSS animations, and a mobile-first responsive design approach.
- Sections built: Hero/About, Education Timeline, Projects Gallery, Skills Progress Bars, and Contact Form with basic form validation using JavaScript.
- Technologies used:** HTML5, CSS3, JavaScript, GitHub Pages, VS Code.
